电脑上插上 USB 的硬件狗以后，Sapera License Manager 提示如下图所示的“License not found”信息，是因为没有正确加载 License File 文件。

如何获取 License File，请按照以下步骤进行：

第一步、确认账户是否可用

只有注册过全狗(Sapera Essential Processing SDK 的开发狗)的账号才能获取 License File 文件。如果您已经注册过全狗,直接跳转入“**第二步、进入 Software Registration 页面**”。如果您没有注册过全狗,请先进入以下网址:

Sapera SDK and Runtimes

To activate your Sapera SDK or generate runtime licenses, you must register online with either the **Webcode** or the **Hardware Serial Number** (for runtimes for qualified Teledyne DALSA hardware). This process of activation creates usable software licenses and begins your 12-month maintenance period for free upgrades. Webcodes are shipped with all new Sapera Essential, Nitrous, and Architect Plus SDK packages and Runtime licenses. Webcodes do not have time limits for registration, but they can only be used once. **NOTE:** Sapera Essential packages include Sapera LT. You do not need to register them separately.
